**Implantando uma empresa** Cesar Salim,Carlos Frederico Ferreira,Helene Salim,2013-05-24 Este livro é o resultado da experiência dos autores no apoio a empreendedores na implantação de suas empresas. A partir do plano de empreendimento, o empreendedor será conduzido no processo de implantação de sua empresa, dando a ele todos os elementos necessários para que tenha sucesso em seus objetivos. Para isso, os autores utilizam o Plano de 100 Dias, que dirá como sair do Plano de Negócio para a empresa ser instalada e abrir suas portas, ainda que em uma fase preliminar.

*As comissões da verdade e os arquivos da ditadura militar brasileira* Mônica Tenaglia,2023-01-01 Esta obra explora o contexto histórico-legal das comissões da verdade no Brasil e no mundo e reconstrói as estratégias e ações das comissões brasileiras para o acesso aos arquivos da ditadura militar (1964-1985). A partir da análise da emergência do reconhecimento dos arquivos para as investigações sobre violações dos direitos humanos e a efetivação do direito à informação, à verdade e à memória, o livro discute o fenômeno da criação de comissões da verdade em todo o território nacional brasileiro e as relações das comissões com os arquivos. Nesse sentido, evidenciam-se a insuficiência das políticas de gestão documental e um quadro de negação, ocultamento e destruição dos arquivos do período da ditadura militar. Todavia, identifica-se que, apesar dos problemas e limitações, as comissões da verdade conseguiram criar estratégias e implementar ações para superar essas dificuldades, dentre elas, parcerias com as universidades, especialmente com os cursos de Arquivologia. Como lacuna na atuação das comissões da verdade no Brasil, o livro constata que foram poucas as ações educativas realizadas fora dos círculos acadêmicos e voltadas a uma parcela mais ampla da população brasileira.

**Comissões de representantes dos trabalhadores dentro das empresas** Marcus Vinícius Ramos Côrtes,2020-09-04 Com a regulamentação do instituto da comissão de representantes dos empregados nas empresas, esta ferramenta, que estava estagnada no artigo 11 da Constituição Federal, passou a ter potencial de aplicação prática nas empresas, surgindo, com essa possibilidade, questionamentos de ordem executiva, assim como dúvidas acerca dos limites jurídicos do instituto. A lacônica redação da lei regulamentadora abriu espaço para questionamentos sobre a forma de aplicação do instituto no cotidiano e acerca do enquadramento normativo das comissões, sua delimitação diante da Constituição, das leis, das normas infralegais, dos instrumentos coletivos e das normas internacionais. A novidade tem repercussões constitucionais relevantes, ocasionando reflexões sobre os valores sociais do trabalho e da livre iniciativa, a exclusividade sindical para a negociação

coletiva, a igualdade, a autonomia privada coletiva, a condição mais benéfica ao trabalhador, a liberdade de associação, etc. A inclusão das comissões de representantes na dinâmica das relações de trabalho causa impactos possivelmente imprevistos pelo legislador, agregando complexidade às já conturbadas relações entre empregados, sindicatos e empresas. Portanto, delimita-se os contornos práticos da aplicação do instituto, seguindo uma ordem didática pautada pelo Título IV-A da Consolidação das Leis do Trabalho, verificando as possibilidades das comissões e suas fronteiras frente aos demais entes das relações trabalhistas, de maneira a conferir alguma previsibilidade e segurança jurídica, norteando a atuação dos envolvidos na implementação de uma nova modalidade de representação.

Comissões de Ética no Uso de Animais Marta Luciane Fischer, Lilian Gauto Quintana Jankoski, 2020-07-08 Este livro se apresenta como uma análise dos surgimentos das Comissões de Ética no Uso de Animais, tendo como marco os dez anos transcorridos da chamada Lei Arouca, que é um importante marco de regulamentação nesta área. Ao longo dos textos pode-se verificar a importância desta lei, sua gênese, sua implementação e desdobramentos. Mais importante do que uma legislação, é de fato o movimento humano de consciência da problemática que a lei busca proteger e regular. Sem este movimento na sociedade e nas consciências humanas, não há lei e mesmo as leis existentes podem ser suspensas e extintas se tais movimentos e inspirações se extinguirem. Mário Antônio Sanches

**As Comissões de Fixação e de Revisão da Matéria Colectável do IRP** José Leiria, 2023-06-30 Existem vários estudos sobre o Direito Tributário do sector petrolífero em Angola na vertente substantiva, porém pouco se escreve relativamente à sua vertente adjectiva ou procedimental, e os estudos sobre as Comissões de Fixação e de Revisão da Matéria Colectável do Imposto sobre o Rendimento do Petróleo são praticamente inexistentes. Esta realidade motivou a escolha do tema, considerando que o procedimento tributário especial para o sector petrolífero, em geral, e as Comissões de Fixação e de Revisão da Matéria Colectável, em particular, suscitam várias questões, algumas das quais identificadas no presente trabalho. A exploração do petróleo, a consubstanciar na exploração de um recurso mineral de que o Estado é titular, tem merecido um tratamento diferenciado não só no que concerne ao modo de concessão e exploração deste recurso, regulado pela Lei n.º 10/04, de 12 de Novembro, LAP, mas também no que tange à tributação dos correspondentes rendimentos, cujas normas vêm previstas na Lei n.º 13/04, de 24 de Dezembro, LTAP, pois o Estado, enquanto titular dos mesmos, deve ficar com uma parte significativa dos seus rendimentos, quer através dos impostos pagos directamente pelas empresas petrolíferas, quer através dos recebimentos da Concessionária Nacional. O regime especial de tributação do sector petrolífero abrange os aspectos substantivos e apresenta, também, um desenho procedimental especial e complexo, envolvendo as empresas petrolíferas, enquanto contribuintes, e organismos do Estado que intervêm directamente no procedimento tributário (Administração Geral Tributária, Ministro das Finanças, Ministério dos Petróleos e Concessionária Nacional). As especificidades do procedimento tributário no sector petrolífero da fase upstream colocam em risco alguns

institutos típicos do Direito Processual Tributário, criando mecanismos próprios que visam adequar-se quer à realidade do país, quer às particularidades do sector. As Comissões de Fixação e de Revisão da Matéria Colectável são corolários do regime especial de tributação do sector petrolífero, desempenhando um importante papel na liquidação do IRP. A peculiaridade destas Comissões, enquanto órgãos que praticam actos tributários, vem mitigar quer as funções tradicionais da Administração Tributária, quer a função cada vez mais comum de o próprio sujeito passivo liquidar o imposto, o que suscita várias questões em torno das suas competências e funcionamento, enquanto substitutas dos tradicionais intervenientes da relação jurídico-tributária

Controle Jurisdicional dos poderes de investigação das Comissões Parlamentares de Inquérito Raimundo Carlyle de Oliveira Costa, 2020-12-04 O livro trata do controle exercido pelo Judiciário sobre os poderes de investigação das CPIs, que não se dá exclusivamente através dos instrumentos processuais exercitáveis (direito de ação), dos quais são exemplos o mandado de segurança e o habeas corpus, mas, também, via limites impostos pela própria Constituição e ínsitos ao princípio da inafastabilidade do controle jurisdicional, tendo no devido processo legal (due process of law), na motivação das decisões e na licitude e legitimidade das provas suas balizas mais contundentes.

**Múltiplos olhares sobre as comissões da verdade no Brasil: disputas e perspectivas** Fernando Perlatto (org.), 2023-07-18 A coletânea reúne artigos que abordam as comissões da verdade no Brasil a partir de múltiplos olhares e de diferentes prismas, compreendendo-as como espaços de disputas de sujeitos e de narrativas, que configuraram determinados rumos e direções nas ações relacionadas à justiça de transição e nas políticas de memória.

Dictatorship and the Electoral Vote Carlos Domper Lasus, 2020-01-02 Why do dictatorships have elections? Dictatorship and the Electoral Vote analyses the role of elections in two dictatorships that were born in the Era of Fascism but survived up to the 1970s: the Portuguese New State and Francoism. A comparative study of the electoral vote held by both dictatorships is revealing at many organizational and structural levels. The multiple political interactions involved in elections worldwide have been subject to social science scrutiny but rarely encompass historical context. The analysis of the electoral vote held by Iberian dictatorships is uniquely placed to link the two. The issues to hand include: drawing of electoral rolls; evolution of the number of people allowed to vote; candidate selection processes; propaganda methods; impact on the institutional structure of the regime; the socio-political biographies of the candidates; the electoral turnout and final tally; relationship between the central and peripheral authorities of the state; and the viewpoint of regime authorities on the holding of elections. Comparative analysis of all these issues enables a better understanding of the political nature of these dictatorships as well as a comprehensive explanation of the historical roots and evolution of the elections these dictatorship held since 1945. Based on primary archival documents, some of them never previously accessed, the book offers a detailed explanation of how

these dictatorships used elections to consolidate their political authority and provides a historical approach that allows placing both countries in the framework of European electoral history and in the history of the political evolution of Iberian dictatorships between the Axis defeat and their breakdown in the mid-seventies.

**Guia prático de formação de preços** Roberto Assef,2013-05-24 Os empresários e executivos estão cada vez mais preocupados em avaliar corretamente os preços de venda de seus produtos, pois sabem o quanto isto influi nos resultados finais de seu negócio. O ambiente de alta competição que predomina nos dias de hoje impõe a necessidade de um conhecimento técnico sobre a metodologia da formação de preços de venda e das margens de contribuição. Roberto Assef mostra que a tarefa de precificação não é tão complexa como se imagina. Numa linguagem clara, aborda os aspectos mercadológicos, essenciais para a avaliação da linha de produtos e da concorrência, tributários e financeiros básicos. Esta 4a edição aborda, essencialmente, a questão tributária; notadamente a que envolve a Substituição tributária do ICMS, com diversos exemplos e simulações. Além disso, alguns conceitos mercadológicos, tão essenciais na formação de preços, foram aprimorados.

*Sustainable Policies and Practices in Energy, Environment and Health Research* Walter Leal Filho,Diogo Guedes Vidal,Maria Alzira Pimenta Dinis,Ricardo Cunha Dias,2021-12-15 This book aims to give a contribution to a more comprehensive and interdisciplinary understanding of the cross-cutting issues on energy, environment and health research topics in the current world scenario, where nations all over the world are struggling to accomplish the United Nations Sustainable Development Goals and to ensure sustainable patterns for all. This interdisciplinary implies a commitment between all fields of science, working together to provide knowledge that could result in the promotion of quality of life. At the present, it is evident that not all people benefit from sustainable policies and practices and the communication between health, energy, environmental and social problems is undeniable. A call for different views could be a pathway attracting universities, stakeholders, organizations and civil society to deeply discuss how one solution does not fit all societies. Few publications are coherently handling this matter. This book is expected to fill this gap and to develop an interest in a larger audience working in general sustainable development and cross-cutting issues. This book is produced by the European School of Sustainability Science and Research (ESSSR). It gives special emphasis to state-of-the-art descriptions of approaches, methods, initiatives and projects from universities, stakeholders, organizations and civil society across the world, regarding cross-cutting issues in energy, environment and health research.

**Data Protection and Privacy, Volume 14** Dara Hallinan,Ronald Leenes,Paul De Hert,2021-12-16 This book brings together papers that offer conceptual analyses, highlight issues, propose solutions, and discuss practices regarding privacy, data protection and enforcing rights in a changing world. It is one of the results of the 14th annual International Conference on Computers, Privacy and Data Protection (CPDP), which took place online in January 2021. The pandemic has produced deep and ongoing changes in how, when, why, and the media through which, we interact. Many of these changes correspond to new approaches in the collection and use of our data - new in terms of scale, form, and purpose. This raises difficult questions as to which rights we have, and should have, in relation to such novel forms of data processing, the degree to which these rights should be balanced against other poignant social interests, and how these rights should be enforced in light of the fluidity and uncertainty of circumstances. The book covers a range of topics, such as: digital sovereignty; art and algorithmic accountability; multistakeholderism in the Brazilian General Data Protection law; expectations of privacy and the European Court of Human Rights; the function of explanations; DPIAs and smart cities; and of course, EU data protection law and the pandemic - including chapters on scientific research and on the EU Digital COVID Certificate framework. This interdisciplinary book has been written at a time when the scale and impact of data processing on society - on individuals as well as on social systems - is becoming ever starker. It discusses open issues as well as daring and prospective approaches and is an insightful resource for readers with an interest in computers, privacy and data protection.

Disrupting Hate in Education Rita Verma,Michael W. Apple,2020-11-26 Disrupting Hate in Education aims to identify and respond to the ideological forms of hate and fear that are present in schools, which echo larger nativist and populist agendas. Contributions to this volume are international in scope, providing powerful examples from US schools and communities, examining anti-extremism work in the UK, the saffronization of schools in India, struggles to re-orient the villainization of teachers in Brazil, and more. Written by a dynamic group of activist educators and critical researchers, chapters demonstrate how conservative mobilizations around collective identities gain momentum, and how these mobilizations can be interrupted. Out of these interruptions come new opportunities to practice a critically democratic education that hinges upon risk-taking, deep dialogue, and creating a space for common dignity.
